VERSION DESCRIPTION

Version1.00: Reorganised Anonymized dataset for publication

PRODUCTION DATE

2012-03-08

NOTES

The final unit level data of ASI 2004-05 is available now in electronic media. A note on final unit level of ASI 2004-05 is available in "readme05" document. Users are requested to go through this document carefully before they attempt to process the unit level data for their own purpose. This document describes additional information regarding ASI 2004-05 data from the point of data processing. They are also requested to refer to the schedule and the instruction manual for filling up the schedule before interpreting contents of various data fields.

Overview

ABSTRACT

Introduction

The Annual Survey of Industries (ASI) is the principal source of industrial statistics in India. It provides statistical information to assess changes in the growth, composition and structure of organised manufacturing sector comprising activities related to manufacturing processes, repair services, gas and water supply and cold storage. Industrial sector occupies an important position in the State economy and has a pivotal role to play in the rapid and balanced economic development. The Survey is conducted annually under the statutory provisions of the Collection of Statistics Act 1953, and the Rules framed there-under in 1959, except in the State of Jammu & Kashmir where it is conducted under the State Collection of Statistics Act, 1961 and the rules framed there-under in 1964.

KIND OF DATA

Census and Sample survey data [cen/ssd]

UNITS OF ANALYSIS

The primary unit of enumeration in the survey is a factory in the case of manufacturing industries, a workshop in the case of repair services, an undertaking or a licensee in the case of electricity, gas & water supply undertakings and an establishment in the case of bidi & cigar industries. The owner of two or more establishments located in the same State and pertaining to the same industry group and belonging to same scheme (census or sample) is, however, permitted to furnish a single consolidated return. Such consolidated returns are common feature in the case of bidi and cigar establishments, electricity and certain public sector undertakings.

Scope

NOTES

The survey covers all the factories registered under Sections 2(m)(i) and 2(m)(ii) of the Factories Act, 1948, i.e. 10 or more workers with the aid of power or 20 or more workers without the aid of power. The survey also covers bidi and cigar manufacturing establishments registered under the Bidi and Cigar Workers (Conditions of Employment) Act 1966. All

electricity undertakings engaged in generation, transmission and distribution of electricity, but not registered with the Central Electricity Authority (CEA) are also covered under ASI.

TOPICS

Topic	Vocabulary	URI
Macroeconomics & Growth	World Bank	http://www.surveynetwork.org/toolkit
Private Sector and Trade	World Bank	http://www.surveynetwork.org/toolki
Public Sector	World Bank	

KEYWORDS

FIXED CAPITAL, BONUS, WORKING CAPITAL, EMPLOYEES, WAGES AND SALARIES, TOTAL EMOLUMENTS, FUELS CONSUMED, DEPRECIATION, GROSS OUTPUT, NET VALUE ADDED, FINISHED GOODS, PHYSICAL WORKING CAPITAL, TOTAL INPUT, TOTAL OUTPUT, BLOCK-A (IDENTIFICATION PARTICULARS FOR OFFICIAL USE), BLOCK-B (PARTICULARS OF FACTORIES:TO BE FILLED BY OWNERS), BLOCK-C (FIXED ASSETS), BLOCK-D (WORKING CAPITAL AND LOANS), BLOCK-E (EMPLOYMENT AND LABOUR COST), BLOCK-F (OTHER EXPENSES), BLOCK-G (OTHER INCOMES), BLOCK-H (INPUT ITEMS - Indigenous items consumed), BLOCK-I (INPUT ITEMS - Directly imported items only (consumed)), BLOCK-J (PRODUCTS AND BY-PRODUCTS (Manufactured by the unit))

Coverage

GEOGRAPHIC COVERAGE

The ASI extends to the entire country except the States of Arunachal Pradesh, Mizoram, and Sikkim and Union Territory of Lakshadweep. It covers all factories registered under Sections 2m(i) and 2m(ii) of the Factories Act, 1948 i.e. those factories employing 10 or more workers using power; and those employing 20 or more workers without using power. The survey also covers bidi and cigar manufacturing establishments registered under the Bidi & Cigar Workers (Conditions of Employment) Act, 1966 with coverage as above.

Although the scope of the ASI was extended to all registered manufacturing establishments in the State, establishments under the control of the Defence Ministry, oil storage and distribution units, restaurants and cafes and technical training institutions not producing anything for sale or exchange were kept outside the coverage of the ASI.

UNIVERSE

The survey cover factories registered under the Factory Act 1948.

Establishments under the control of the Defence Ministry, oil storage and distribution units, restaurants and cafes and technical training institutions not producing anything for sale or exchange were kept outside the coverage of the ASI.

The geographical coverage of the Annual Survey of Industries, 2004-2005 has been extended to the entire country except the states of Arunachal Pradesh, Mizoram and Sikkim and Union Territory of Lakshadweep.

Sampling

Sampling Procedure

Sampling Procedure

The sampling design followed in ASI 2004-05 is a stratified circular systematic one. All the factories in the updated frame (universe) are divided into two sectors, viz., Census and Sample.

Census Sector: Census Sector is defined as follows:

- a) All industrial units belonging to the six less industrially developed states/ UT's viz. Manipur, Meghalaya, Nagaland, Tripura, Sikkim and Andaman & Nicobar Islands.
- b) For the rest of the twenty-six states/ UT's., (i) units having 100 or more workers, and (ii) all factories covered under Joint Returns.
- c) After excluding the Census Sector units as defined above, all units belonging to the strata (State by 4-digit of NIC-04) having less than or equal to 4 units are also considered as Census Sector units.

Remaining units, excluding those of Census Sector, called the sample sector, are arranged in order of their number of workers and samples are then drawn circular systematically considering sampling fraction of 20% within each stratum (State X Sector X 4-digit NIC) for all the states. An even number of units with a minimum of 4 are selected and evenly distributed in two sub-samples. The sectors considered here are Biri, Manufacturing and Electricity.

Deviations from Sample Design

There was no deviation from sample design in ASI 2004-05

Weighting

Please note that an inflation factor (Multiplier) WGT is available for each unit against records belonging to Block A: IDENTIFICATION Block., for ASI 2004-05 data. The multiplier is calculated for each stratum (i.e. State X NIC-04 (4 Digit) after adjusting for non-response cases

Questionnaires

Overview

Annual Survey of Industries Questionnaire (in External Resources) is divided into different blocks:

BLOCK A. IDENTIFICATION PARTICULARS

BLOCK B. PARTICULARS OF THE FACTORY (TO BE FILLED BY OWNER OF THE FACTORY)

BLOCK C: FIXED ASSETS

BLOCK D: WORKING CAPITAL & LOANS

BLOCK E : EMPLOYMENT AND LABOUR COST

BLOCK F : OTHER EXPENSES

BLOCK G : OTHER INCOMES

BLOCK H: INPUT ITEMS (indigenous items consumed)

BLOCK I: INPUT ITEMS - directly imported items only (consumed)

BLOCK J: PRODUCTS AND BY-PRODUCTS (manufactured by the unit)

Data Collection

Data Collection Dates

Start	End	Cycle
2005-04-01	2006-03-31	N/A

Data Collection Mode

Statutory return submitted by factories as well as Face to face

Data Collection Notes

ASI Schedule has two parts: Part-I and Part-II. Part-I of ASI schedule aims to collect data on assets and liabilities, employment and labour cost, receipts, expenses, input items - indigenous and imported, products and by-products, distributive expenses etc. Part-II of ASI schedule aims to collect data on different aspects of labour statistics, namely, working days, mandays worked, absenteeism, labour turnover, man-hours worked, earning and social security benefits.

General Remarks regarding filling up of ASI schedules

The ASI work involves a number of stages. There are some general procedural aspects.

A separate return for each registered factory/electricity supply undertaking should be submitted as a rule. In following this, the aspects to be taken note of are:

Unless ownership has changed during the reference year, only one return is to be compiled for one factory.

If a part of a registered factory has been operated by the owner and another part by the occupier the total manufacturing activities of both the owner and the occupier should be duly recorded in one return.

If the factory as a whole has been rented out, the return for the factory may be filled from the occupier's point of view.

If for a factory, which is served with notice, is found that its products are meant for training of inmates and has no sale value and are produced as a product during training, the facts may be reported to the Statistics Authority and data need not be collected. This is normally applicable to Training Centers and Jails which are registered as factories. Further, workshop in jails registered under factories Act should be canvassed for ASI only when the products of the workshop are meant for sale. In case the products are not sold but are incidental to training to the convicts engaged at the workshop, such a workshop is outside the purviews of ASI.

Submission of Joint Returns

Although, as per rules for such registered unit of inquiry a separate return should be furnished, in special circumstances, where the accounts of two or more registered units cannot be bifurcated factory wise a joint return may be accepted in a particular ASI if all the following conditions are fulfilled:

They are located in the same State.

They belong to the Census Scheme i.e. 100 or more workers only.

They belong to the same industry at the ultimate NIC code level.

There will be no joint return in sample sector. Also there will be no joint return with Census and Sample. In such cases appropriate apportionments should be done to avoid any complications in estimation different parameters. In census sector also appropriate apportionments should be made if some changes occur in joint returns.

Questionnaires

Annual Survey of Industries Questionnaire (in External Resources) is divided into different blocks:

BLOCK A. IDENTIFICATION PARTICULARS

BLOCK B. PARTICULARS OF THE FACTORY (TO BE FILLED BY OWNER OF THE FACTORY)

BLOCK C: FIXED ASSETS

BLOCK D: WORKING CAPITAL & LOANS

BLOCK E : EMPLOYMENT AND LABOUR COST

BLOCK F : OTHER EXPENSES

BLOCK G : OTHER INCOMES

BLOCK H: INPUT ITEMS (indigenous items consumed)

BLOCK I: INPUT ITEMS - directly imported items only (consumed)

BLOCK J: PRODUCTS AND BY-PRODUCTS (manufactured by the unit)

Data Collectors

Name	Abbreviation	Affiliation
NSSO(Field Operation Division)	NSSO(FOD)	Ministry of Statistics and Programme Implementation

Supervision

NSSO under the Ministry of Statistics and PI, Government of India is responsible for supervision of data collection.

Data Processing

Data Editing

Pre-data entry scrutiny was carried out on the schedules for inter and intra block consistency checks. Such editing was mostly manual, although some editing was automatic. But, for major inconsistencies, the schedules were referred back to NSSO (FOD) for clarifications/modifications.

Code list, State code list, Tabulation program and ASICC code are also may be referred in the External Resources which are used for editing and data processing as well..

Tabulation procedure

The tabulation procedure by CSO (ISW) includes both the ASI 2004-05 data and the extracted data from ASI 03-04 for all tabulation purpose. For extracted returns, status of unit (Block A, Item 12) would be in the range 17 to 20. To make results comparable, users are requested to follow the same procedure. For calculation of various parameters, users are requested to refer instruction manual/report. Please note that a separate inflation factor (Multiplier) is available for each unit against records belonging to Block-A for ASI 2004-05 data. The multiplier is calculated for each stratum (i.e. State X NIC-04 (4 Digit) after adjusting for non-response cases.

Note that for all processing Status of unit code 17 to 20 should always be considered.

Merging of unit level data

As per existing policy to merge unit level data at ultimate digit level of NIC'04 (i.e., 5 digit) for the purpose of dissemination, the data have been merged for industries having less than three units within State, District and NIC-04 (5 Digit) with the adjoining industries within district and then to adjoining districts within a state. There may be some NIC-04 (5 Digit) ending with '9' that do not figure in the book of NIC '04. These may be treated as 'Others' under the corresponding 4-digit group. To suppress the identity of factories data fields corresponding to PSL number, Industry code as per Frame (4-digit level of NIC-04) and RO/SRO code have been filled with '9' in each record.

It may please be noted that, tables generated from the merged data may not tally with the published results for few industries, since the merging for published data has been done at aggregate-level to minimise the loss of information.

Other Processing

After pre-data entry scrutiny, all the scrutinised schedules were entered by manual typing through data entry software which was prepared in house. CSO has full fledged Data Processing Centre with technical staff to take up all the processing activities on well established Client-Server architecture system that is used for in house data entry and validation. After data entry, verification of the schedules was also done programmatically. After all kinds of coverage checking and verification, logical validation was done and then the tables were prepared as per the tabulation programme.

The results of ASI are produced in the form of two volumes. Volume - I presents statewise and industry-wise data relating to capital, employments, output - gross and net and several other economic parameters relevant to the industrial sector. Volume -II provides details on materials consumed and ex-factory of products and by products both at all-India level as well as at the level of state/UTs. RSE of estimates at all India level are also available in Volume-I.

Data Appraisal

Estimates of Sampling Error

Relative Standard Error (RSE) is calculated in terms of worker, wages to worker and GVA using the formula. Programs developed in Visual Foxpro are used to compute the RSE of estimates.

Other forms of Data Appraisal

To check for consistency and reliability of data the same are compared with the NIC-2digit level growth rate at all India Index of Production (IIP) and the growth rates obtained from the National Accounts Statistics at current and constant prices for the registered manufacturing sector.

File Description

Variable List

A-IDENTIFICATION PARTICULARS

Content	Block - A- Identification Particulars : The file contains the Identification variables of Factory. It also contains the weighting coefficient or Multiplier - WGT. Variables under this blocks are: YR, DSL common in all the blocks and may be used for relation. Other Identification variables are Scheme, State code, NIC 5 digit, District and Sector. Variables representing Number of Factories A_Itm11, Status of factory A_Itm12, Number of working days (Manufacturing), Number of working days (Non-Manufacturing), Number of working days (Total) and Total cost of production posted from Block E.
Cases	49340
Variable(s)	15
Structure	Type: relational Keys: DSL(Despatch Serial Number)
Version	
Producer	
Missing Data	

Variables

ID	Name	Label	Type	Format	Question
V1	YR	Year	discrete	character	Accounting Year
V2	BLK	Block 'A'	discrete	character	Schedule (Questionnaire) Block
V3	DSL	Despatch Serial Number	discrete	character	Despatch Serial Number
V5	A_Itm3	Scheme code	discrete	character	Scheme code (Census -1, Sample-2)
V161	A_Itm5	Ind Code as per Return (5-digit, NIC-04)	discrete	numeric	Industry Code as per Return (5-digit level of NIC)
V159	A_Itm7	State Code	discrete	numeric	State code for the States of India
V162	A_Itm8	District code	discrete	numeric	District code indicates District of a given state
V10	A_Itm9	Rural/Urban code	discrete	character	Sector (Rural-1, Urban-2)
V12	A_Itm11	No. of units	contin	numeric	No. of Units for which data has been collected from single firm.
V169	A_Itm12	Status of Unit (Code 17 to 20 Extracted data from ASI 03-04)	discrete	numeric	Status of Unit (code)
V14	E_Itm11a	Number of working days (Manufacturing days)	contin	numeric	Mandays worked for manufacturing
V15	E_Itm11b	Number of working days (Non-Manufacturing days)	contin	numeric	Mandays worked for nonmanufacturing
V16	E_Itm11c	Number of working days (Total)	contin	numeric	Total number of working days
V17	E_Itm12	Cost of Production	contin	numeric	Total cost of productin (in Rs.)
V18	WGT	Inflation/Multiplier factor (in 9999.9999 format)	contin	numeric	Weight- multiplier/Inflation factor

B-OWNER'S DETAIL

Content	Block - B Owner's Detai : The file contains the Factory details for : YR, DSL Type of organisation, Type of ownership, Total number of units, Original value of Investment in P & M (codes), ISO Certification, Year of initial production, Accounting year (From) and (To), Months of operation (0 to 12 months), Computerised A/C system and availability of data in Computer.
Cases	44346
Variable(s)	13
Structure	Type: relational Keys: DSL(Despatch Serial No)
Version	
Producer	
Missing Data	

Variables

ID	Name	Label	Type	Format	Question

V23	B_Itm2	Type of organisation	discrete	character	Type of Organisation (code)
V24	B_Itm3	Type of ownership	discrete	character	Type of ownership (code)
V25	B_Itm4	Total number of units	contin	numeric	How many Total number of units with Organisation code 4 & 5 and ownership code 6 is there ?
V26	B_Itm5	Number of units located in the same state	contin	numeric	How many units located in the same state
V163	B_Itm6	Year of initial production	discrete	numeric	Year of initial production (in the format YYYY)
V28	B_Itm7F	Accounting year (From)	discrete	character	Accounting year from (DD-MMM-YY)
V29	B_Itm7T	Accounting year (To)	discrete	character	Accounting year To (DD-MMM-YY)
V30	B_Itm8	Months of operation	discrete	numeric	Number of months of operation
V31	B_Itm9	Computerised A/C system	discrete	character	Whether Accounts is computerised
V32	B_Itm10	Availability of ASI data in Computer	discrete	character	Whether data available on computer media ?

C-FIXED ASSETS

Content	Block - C - fixed assets : The file contains Fixed Assets details. Fixed assets are those which have generally normal productive life of more than one year; it covers all type of assets, new or used or own constructed, deployed for productions, transportation, living or recreational facilities, hospitals, schools, etc. for factory personnel; it would include land, building, plant and machinery, transport equipment, etc.; it includes the fixed assets of the head office allocable to the factory and also the full value of assets taken on hirepurchase basis (whether fully paid or not) excluding interest element; it excludes intangible assets and assets solely used for post-manufacturing activities such as, sale, storage, distribution, etc. Fields in this blocks are: YR, DSL Item number of the type of assets, Gross value : Opening as on, due to revaluation, actual addition, deduction & adjustment during the year and Closing as on. Depreciation: upto year beginning, provided during the year and upto year end Net Value: opening as on, closing as on
Cases	283502

V37	C_Itm1	S. No.	discrete	character	Item number for the type of assets
V38	C_Itm3	Opening as on - Gross Value	contin	numeric	Gross Value (Rs) - Opening value
V39	C_Itm4	Due to revaluation	contin	numeric	Gross Value- Addition during the year due to revaluation
V40	C_Itm5	Actual addition	contin	numeric	Gross Value- Actual Addition during the year
V41	C_Itm6	Deduction & adjustment during the year	contin	numeric	Gross Value of Deduction & adjustment during the year
V42	C_Itm7	Closing as on - Gross Value	contin	numeric	Gross value-closing as on
V43	C_Itm8	Up to year beginning-Depreciation	contin	numeric	Depreciation (Rs) upto the year beginning
V44	C_Itm9	Provided during the year-Depreciation	contin	numeric	Depreciation-provided during the year
V45	C_Itm10	Up to year end-Depreciation	contin	numeric	depreciation upto the year end
V46	C_Itm11	Opening as on - Net Value	contin	numeric	Net value (Rs) -opening as on 01-04-2004
V47	C_Itm12	Closing as on - Net Value	contin	numeric	Net Value closing on 31-03-2005

D-WORKING CAPITALS

Content	PHYSICAL WORKING CAPITAL is the total inventories comprising of raw materials and components, fuels and lubricants, spares, stores and others, semi-finished goods and finished goods as on the closing day of the accounting year. However, it does not include the stock of the materials, fuels, stores etc. supplied by others to the factory for processing and finished goods processed by the factory from raw materials supplied by others. WORKING CAPITAL is the sum total of the physical working capital as already defined above and the cash deposits in hand and at bank and the net balance receivable over amounts payable at the end of the accounting year. Working capital, however, excludes unused overdraft facility, fixed deposits irrespective of duration, advances for acquisition of fixed assets, loans and advances by proprietors and partners irrespective of their purpose and duration, long-term loans including interest thereon and investments. For more details on Working capitals and Loans, please refer to instruction to field staff. Fields in this block are : YR, DSL Item serial no. Working capital : opening (Rs.) , Closing (Rs.) Outstanding loans (excluding Interest but including deposits)

E-EMPLOYMENT AND LABOUR COST

Content	Block E - Employment and Labour cost : Information collected in this block is regarding employment and labour cost. In this block emoluments of the employees to be collected. Emoluments are defined as wages paid to all employees plus imputed value of benefits in kind, i.e., the net cost to the employers on those goods and services provided to employees free of charge or at markedly reduced cost which are clearly and primarily of benefit to the employees as consumers. It includes profit sharing, festival and other bonuses and ex-gratia payments paid at less frequent intervals (i.e. other than bonus paid more or less regularly for each period). Benefits in kind include supplies or services rendered such as housing, medical, education and recreation facilities. Personal insurance, income tax, house rent allowance, conveyance, etc. for payment by the factory also is included in the emoluments. The variables are : YR, DSL Item No. representing category of staff- male workers, female workes, workers employed through contractors, supervisory staff, unpaid family members. Mandays (Manufacturing), Mandays (non-manufacturing), Average number of persons worked, No. of mandays paid for, Wages/salaries, Bonus, Contribution to Provident & other funds and Workman & welfare expenses

V75	E_Itm6	Average Number of persons worked	contin	numeric	Average man days
V76	E_Itm7	No. of mandays paid for	contin	numeric	How many manydays paid for ?
V77	E_Itm8	Wages/salaries (in Rs.)	contin	numeric	How much is the wages paid to employees ?
V78	E_Itm9	Bonus	contin	numeric	Profit sharing bonus
V79	E_Itm10	Contribution to provident fund and other funds	contin	numeric	Contribution to Provident and other funds
V80	E_Itm11	Workman & Staff Welfare Expenses	contin	numeric	Workman & staff welfare expenses

F-OTHER EXPENSES

Content	File Content Block - F Other Expenses : (All the items are Expenditure incurred in Rs.) This block includes the cost of other inputs as both the industrial and non-industrial service rendered by others, which are paid by the factory and most of which are reflected in the ex-factory value of its production during the accounting year. Variables in this block are: YR, DSL work done by others, repair & maintenance of building, Repair & maintenance of fixed assets Operating expenses, non-operating expenses, Insurance charges, Rent paid for plant & machinery and other fixed assets, Total expenses Rent paid for buildings, Rent/Royalties, Interest paid and Purchase value of goods sold in the same condition as purchased

V93	F_Itm6	Rent paid for Plant & Machinery and other Fixed assets	contin	numeric	Expenditure on Rent paid for plant & machinery and other fixed assets
V94	F_Itm7	Total expenses	contin	numeric	Total expenses (1 to 6)
V95	F_Itm8	Rent paid for Buildings	contin	numeric	Expenditure on Rent paid for buildings
V96	F_Itm9	Rent/Royalties	contin	numeric	Expenditure on Rent paid for land on lease or royalties on mines, querries and similar assets
V97	F_Itm10	Interest paid	contin	numeric	Expenditure on Interest paid
V98	F_Itm11	Value of purchase goods sold	contin	numeric	Expenditure on Purchase value of goods sold in the same condition as purchased

G-OTHER OUTPUTS RECEIPTS

Content	File Content Block - G Other Outputs/Receipts (Incomes) : The file contains Other OUTPUT/RECEIPTS Detail (All items are Receipts in Rs.) : In this block, information on other output/receipts is to be reported. Fields are : YR, DSL Income from services, variation in stock of semi-finished goods, Value of electricity generated and sold Value of own construction, Net balance of goods sold as purchased, Rent received for P & m and other fixed assets Total receipts. Rent received for building, Rent/Royalties, Interest received Sale value of goods sold in the same condition as purchased

V112	G_Itm11	Value of goods sold as purchased	contin	numeric	Sale value of goods sold in the same condition as purchase

H-INPUT ITEMS INDIGENOUS

Content	Block - H Input Items Indigenous : This block covers all the goods (raw materials, components, chemicals, packing material, etc.) which entered into the production process of the factory during the accounting year. The file contains Input Items - Indigenous items consumed : YR, DSL Item code (ASiCC), Unit of quantity (code), Quantity consumed Purchase value (Rs.) Rate per unit (Rs. 0.00)
Cases	434581
Variable(s)	9
Structure	Type: relational Keys: DSL(Despatch Serial No)
Version	
Producer	
Missing Data	

Variables

ID	Name	Label	Type	Format	Question
V114	YR	Year	discrete	character	Accounting Year
V115	BLK	Block code 'H'	discrete	character	Schedule (Questionnaire) Block
V116	DSL	Despatch Serial No	discrete	character	Despatch Serial Number
V158	H_Itm1	Sl. No.	discrete	numeric	Item No. - Sr. No. for the indigenous input items consumed
V118	H_Itm3	Item code (ASiCC)	discrete	character	item code (ASiCC)
V168	H_Itm4	Unit of Quantity (code)	discrete	numeric	unit of quantity (code)
V120	H_Itm5	Quantity consumed	contin	numeric	quantity consumed
V121	H_Itm6	Purchase value (in Rs)	contin	numeric	purchase value (in Rs.)
V122	H_Itm7	Rate per unit (in Rs 0.00)	contin	numeric	rent per unit (in Rs.)

I-INPUT ITEMS IMPORTED

Content	Block - I - Input Items Imported : Details of imported input items consumed - directly only : Information in this block is to be reported for all imported items consumed. The items are to be imported by the factory directly. Variables are for : YR, DSL Item serial number represents major five imported items and other items imported, Total imports(consumed), Item code (ASICC code), Unit of quantity, Quantity consumed, Purchase value (Rs.) Rate per unit (Rs. 0.00)
Cases	22886
Variable(s)	9
Structure	Type: relational Keys: DSL(Despatch Serial Number)
Version	
Producer	
Missing Data	

Variables

ID	Name	Label	Type	Format	Question
V124	YR	Year	discrete	character	Accounting Year
V125	BLK	Block code 'I'	discrete	character	Schedule (Questionnaire) Block
V126	DSL	Despatch Serial Number	discrete	character	Despatch Serial Number
V157	I_Itm1	S No	discrete	numeric	Item No. - Sr. No.
V128	I_Itm3	Item code (ASICC code)	discrete	character	Item code (ASICC)
V167	I_Itm4	Unit of quantity	discrete	numeric	Unit of quantity
V130	I_Itm5	Quantity consumed	contin	numeric	Quantity consumed
V131	I_Itm6	Purchase value	contin	numeric	Purchase value (in Rs.)
V132	I_Itm7	Rate per unit	contin	numeric	Rate per unit (in Rs.)

J-PRODUCTS AND BY-PRODUCTS

Content	Block - J Products and By-products : Products and By-Products (Manufactured by the unit) detail : It includes information on all goods that have been produced by the factory during the accounting year for sale, i.e., either actually sold during the accounting year or entered into stocks. Calculation of gross value added of the enterprise will be done here. In this block information like quantity manufactured, quantity sold, gross sale value, excise duty, sales tax paid and other distributive expenses, per unit net sale value and ex-factory value of output will be furnished by the factory item by item. If the distributive expenses are not available product-wise, the details may be given on the basis of reasonable estimation. Variables in this block are: YR, DSL Serial numbe represents products/by-products for first ten major items as per value - no brand name, Item code (ASICC code), Unit of quantity Quantity manufactured Quantity sold Gross sale value (Rs.) Exice duty, Sales tax, Others , Total Per unit net sale value (Rs.) Ex-factory (Rs.)
Cases	108691
Variable(s)	15

Year (YR)

File: A-IDENTIFICATION PARTICULARS

Overview

Type: Discrete	Valid cases: 49340
Format: character	Invalid: 0
Width: 2	

Description

REFERENCE YEAR for ASI 2004-2005 is the accounting year of the factory ending on 31 st March 2005 while the survey was conducted in 2005-2006.

Literal question

Accounting Year

Block 'A' (BLK)

File: A-IDENTIFICATION PARTICULARS

Overview

Type: Discrete	Valid cases: 49340
Format: character	Invalid: 0
Width: 1	

Literal question

Schedule (Questionnaire) Block

Despatch Serial Number (DSL)

File: A-IDENTIFICATION PARTICULARS

Overview

Type: Discrete	Valid cases: 49340
Format: character	Invalid: 0
Width: 5	

Description

schedule despatch (DSL) no: With a view to reconcile the despatch of filled-in schedule by FOD field offices vis-à-vis receipt of the same by CSO (IS Wing), Kolkata a unique Despatch Serial number (DSL) has been provided for all the selected factories both under Census Sector and the Sample Sector and the same is to be reported by the field staff of FOD both in Parts I & II. These items will be copied from the sample list. DSL numbers are unique across the region for a particular year of survey. However, the same factory may have different DSL numbers in different years of survey.

Literal question

Despatch Serial Number

Scheme code (A_Itm3)

File: A-IDENTIFICATION PARTICULARS

Overview

Type: Discrete	Valid cases: 49340
Format: character	Invalid: 0
Width: 1	

Description

This is the code usually given for census and sample units as per sampling design. The census unit will be given code 1 and sample units will be given code 2.

Literal question

Scheme code (Census -1, Sample-2)

Interviewer instructions

Scheme code (A_Itm3)

File: A-IDENTIFICATION PARTICULARS

Record 1 or 2 depending on whether the selected unit is for Census or Sample

Ind Code as per Return (5-digit, NIC-04) (A_Itm5)

File: A-IDENTIFICATION PARTICULARS

Overview

Type: Discrete	Valid cases: 49340
Format: numeric	Invalid: 0
Width: 5	
Decimals: 0	

Description

National Industrial Classification code

Literal question

Industry Code as per Return (5-digit level of NIC)

Interviewer instructions

This code should be given as per maximum ex-factory value of output of major activities of the multiple products and by-products manufactured by the units. A valid NIC code needs to be given from NIC 2004..

State Code (A_Itm7)

File: A-IDENTIFICATION PARTICULARS

Overview

Type: Discrete	Valid cases: 49340
Format: numeric	Invalid: 0
Width: 2	
Decimals: 0	

Source of information

The code has been provided for all the selected factories both under Census Sector and the Sample Sector and the same is to be reported by the field staff of FOD both in Parts I & II. These items will be copied from the sample list.

Literal question

State code for the States of India

District code (A_Itm8)

File: A-IDENTIFICATION PARTICULARS

Overview

Type: Discrete	Valid cases: 49340
Format: numeric	Invalid: 0
Width: 2	
Decimals: 0	

Source of information

The code has been provided for all the selected factories both under Census Sector and the Sample Sector and the same is to be reported by the field staff of FOD both in Parts I & II. These items will be copied from the sample list.

Literal question

District code indicates District of a given state

Rural/Urban code (A_Itm9)

File: A-IDENTIFICATION PARTICULARS

Overview

Type: Discrete	Valid cases: 49340
Format: character	Invalid: 0
Width: 1	

Description

Sector represents Rural and Urban

Literal question

Sector (Rural-1, Urban-2)

Interviewer instructions

Record 1 or 2 depending on whether the selected sample village/block is classified as Rural or Urban

No. of units (A_Itm11)

File: A-IDENTIFICATION PARTICULARS

Overview

Type: Continuous	Valid cases: 49340
Format: numeric	Invalid: 0
Width: 2	Minimum: 1
Decimals: 0	Maximum: 58
Range: 1-58	Mean: 1.1
	Standard deviation: 0.5

Description

FACTORY is one, which is registered under sections 2m (i) and 2m (ii) of the Factory Act, 1948. The sections 2m (i) and 2m (ii) refer to any premises including the precincts thereof (a) whereon ten or more workers are working, or were working on any day of the preceding twelve months, and in any part of which a manufacturing process is being carried on with the aid of power, or is ordinarily so carried on or (b) whereon twenty or more workers are working or were working on any day of the preceding twelve months and in any part of which a manufacturing process is being carried on without the aid of power, or is ordinarily so carried on.

Literal question

No. of Units for which data has been collected from single firm.

Interviewer instructions

Number of units for which the schedule (return) is compiled will be recorded against this item. Here the number of units will be greater than 1 in the case of joint returns. Also, in the case of joint returns, proper DSL numbers for which the joint return is compiled should be properly given.

Status of Unit (Code 17 to 20 Extracted data from ASI 03-04)
(A_Itm12)

File: A-IDENTIFICATION PARTICULARS

Overview

Type: Discrete	Valid cases: 49340
Format: numeric	Invalid: 0
Width: 2	
Decimals: 0	
Range: 1-99	

Literal question

Status of Unit (code)

Interviewer instructions

status of unit:

Number of working days (Manufacturing days) (E_Itm11a)

File: A-IDENTIFICATION PARTICULARS

Overview

Type: Continuous	Valid cases: 49340
Format: numeric	Invalid: 0
Width: 3	Minimum: 0
Decimals: 0	Maximum: 608
Range: 0-608	Mean: 226.2
	Standard deviation: 125.4

Description

Manufacturing days will mean and include number of days on which actual manufacturing process was carried out by the unit.

Literal question

Mandays worked for manufacturing

Interviewer instructions

The total number of man-days worked during the accounting year by each category of employees is obtained by summing up the number of workers attending in each shift over all shifts worked on all working days during the accounting year. This figure excludes persons who are paid but remain on leave/ strike etc. Non-Working day is the day on which neither manufacturing process nor repairing and maintenance work is carried out but the factory and/or office remains open.

Number of working days (Non-Manufacturing days) (E_Itm11b)

File: A-IDENTIFICATION PARTICULARS

Overview

Type: Continuous	Valid cases: 49340
Format: numeric	Invalid: 0
Width: 3	Minimum: 0
Decimals: 0	Maximum: 637
Range: 0-637	Mean: 9.2
	Standard deviation: 40.6

Description

Non-manufacturing days will mean and include number of days on which only repair/maintenance and construction work was undertaken.

Literal question

Mandays worked for nonmanufacturing

Number of working days (Total) (E_Itm11c)

File: A-IDENTIFICATION PARTICULARS

Overview

Type: Continuous	Valid cases: 49340
Format: numeric	Invalid: 0
Width: 3	Minimum: 0
Decimals: 0	Maximum: 665
Range: 0-665	Mean: 234.9
	Standard deviation: 123.8

Description

It is obtained by summing-up the number of persons attending in each shift over all the shifts worked on all days, i.e. both manufacturing and non-manufacturing days.

Literal question

Total number of working days

Cost of Production (E_Itm12)

File: A-IDENTIFICATION PARTICULARS

Overview

Type: Continuous	Valid cases: 49340
Format: numeric	Invalid: 0
Width: 12	Minimum: -634862
Decimals: 0	Maximum: 584490479409
Range: -634862-584490479409	Mean: 211593906.4
	Standard deviation: 3659187749.7

Literal question

Total cost of productin (in Rs.)

Inflation/Multiplier factor (in 9999.9999 format) (WGT)

File: A-IDENTIFICATION PARTICULARS

Overview

Type: Continuous	Valid cases: 49340
Format: numeric	Invalid: 0
Width: 6	Minimum: 1
Decimals: 4	Maximum: 6.5
Range: 1-6.5	Mean: 3.3
	Standard deviation: 1.9

Literal question

Weight- multiplier/Inflation factor

work done by others on material supplied by the Industrial Undertaking: This covers payments made by the factory for contract and commission work done by others on materials supplied by the factory during the year. Payments to home workers and cost of similar work carried out by the factory's sister concerns are to be included.

Literal question

work done by others on materials
supplied by the industrial unit

Repair & maintenance of Building (F_Itm2a)

File: F-OTHER EXPENSES

Overview

Type: Continuous	Valid cases: 41202
Format: numeric	Invalid: 0
Width: 9	Minimum: 0
Decimals: 0	Maximum: 272918849
Range: 0-272918849	Mean: 421816.1
	Standard deviation: 3808725.9

Literal question

Expenditure on bulidings and other construction-repair & construction

Interviewer instructions

repair & maintenance of all fixed assets: The cost of materials consumed by the factory for repair and maintenance of buildings, plant & machinery, pollution control equipment and other fixed assets and cost of repairs and maintenance carried out by others to the factory's sister concerns is to be included but capitalized repairs are not included. It should be noted that materials consumed for repair and maintenance and those commodities that help to keep the fixed assets of a factory in shape and in a serviceable condition are distinguished from consumable stores, i.e., commodities which indirectly help in production, without having anything to do with the upkeep of fixed assets of the factory. Consumable stores will not be reported here. The kerosene oil used for cleaning the machinery will be shown against Item 2 as it helps the machinery to remain in working condition. This is common to all the repair & maintenance against Item 2a,2b,2cand 2d

Valid cases: 434581
 Invalid: 0

Description

Item No- Sr No represents indigenous items consumed. Item description in col. 2 for H_Itm_1 (S. No./Item No.) is filled up based upon the consumption (purchase value in Rs.) for top 10 indigenous item (ASICC Code in H_Itm_3). Item value from 11 to 23 are fixed for various ASICC code.

Literal question

Item No. - Sr. No. for the indigenous input items consumed

Interviewer instructions

Sl. No. (H_Itm1)

File: H-INPUT ITEMS INDIGENOUS

Details of all basic materials consumed during the year are to be reported both in quantity and value along with unit of quantity against Item 1 to 10. If the serial number of basic materials exceeds 10, then additional sheets may be added to record the input items with serial numbers starting from 25. The item(s) for which the description(s) is not available in the ASICC code, all such materials are to be clubbed together and aggregated value only will be reported against Item 11.

Item code (ASICC) (H_Itm3)

Literal question

Quantity sold

Interviewer instructions

It will also refer the products and quantity manufactured in the reference financial year.

Gross sale value (Rs.) (J_Itm7)

File: J-PRODUCTS AND BY-PRODUCTS

Overview

Type: Continuous	Valid cases: 108691
Format: numeric	Invalid: 0
Width: 12	Minimum: 0
Decimals: 0	Maximum: 721155010498
Range: 0-721155010498	Mean: 232691304
	Standard deviation: 3644489593.5

Literal question

Gross sale value (Rs.) (including subsidy received)

Interviewer instructions

The gross sale value of the products as charged from the customers will be reported here. It includes excise duty paid or sales tax realized by the factory on behalf of the Government as also all distributive expenses incurred such as (i) discount or rebate, allowances for returnable cases or other packing and any other drawback allowed to customers, (ii) charges for carriage, outward, and (iii) commission to selling agents. It should be noted that in case of factories where net sale value is available, the gross sale value should be arrived at by adding excise duty, etc. Further the subsidy received, if any, from Government should also be included while reporting gross sale value. In case gross sale value is not available, net sale value may be reported with a foot note. However, adjustments of accounts pertaining to earlier year shown in the profit and loss accounts of the year should not be taken into account.

Where part of the product of factory is exported at a loss, for convenience of calculation, calculate the sale value entirely on the basis of domestic pricing, ignoring loss on exports, cash subsidy received in the year, and profits made from sale of import entitlements or actual sale of mill stores, raw materials and machinery imported. Where a factory puts all its products in the foreign market for sale, calculate the same value on the basis of value received from exports, together with the subsidy received, if any. For the products meant entirely for the domestic market and subsidy received from the Government, the same treatment will be given.

Excise duty (J_Itm8)

File: J-PRODUCTS AND BY-PRODUCTS

Overview

Type: Continuous	Valid cases: 108691
Format: numeric	Invalid: 0
Width: 11	Minimum: 0
Decimals: 0	Maximum: 54843144254
Range: 0-54843144254	Mean: 17754019.9
	Standard deviation: 348631440.2

Description

The excise duty is the amount charged to final product of a factory and not charged to intermediate products or processes of production in the factory.

Literal question

Excise duty-Distributive expenses (Rs.)

Sales Tax (J_Itm9)

File: J-PRODUCTS AND BY-PRODUCTS

Overview

Type: Continuous	Valid cases: 108691
Format: numeric	Invalid: 0
Width: 10	Minimum: 0
Decimals: 0	Maximum: 2861428102
Range: 0-2861428102	Mean: 1143184.3
	Standard deviation: 21500377.6

Literal question

Distributive expenses (Rs.)-Sales Tax

Sales Tax (J_Itm9)

File: J-PRODUCTS AND BY-PRODUCTS

Interviewer instructions

The sales tax realised by the factory on behalf of the Government in respect of products sold, are to be reported here.

Others (J_Itm10)

File: J-PRODUCTS AND BY-PRODUCTS

Overview

Type: Continuous	Valid cases: 108691
Format: numeric	Invalid: 0
Width: 11	Minimum: 0
Decimals: 0	Maximum: 10728883501
Range: 0-10728883501	Mean: 7080851
	Standard deviation: 81955048.4

Interviewer instructions

Other distributive expenses i.e. outward transport, rebate, commission, transit insurance of goods sold, packing fees etc are to be recorded here.

Total (J_Itm11)

File: J-PRODUCTS AND BY-PRODUCTS

Overview

Type: Continuous	Valid cases: 108691
Format: numeric	Invalid: 0
Width: 11	Minimum: 0
Decimals: 0	Maximum: 65572027755
Range: 0-65572027755	Mean: 25978055.2

Per unit net sale value (Rs.) [7-11] (J_Itm12)

File: J-PRODUCTS AND BY-PRODUCTS

Overview

Type: Continuous	Valid cases: 108691
Format: numeric	Invalid: 0
Width: 13	Minimum: -1.2
Decimals: 2	Maximum: 3401173161.3
Range: -1.2-3401173161.29	Mean: 158112.2
	Standard deviation: 14097272.1

Literal question

Per unit net sale value (Rs.) [col 7-
col 11]/col 6

Interviewer instructions

To arrive at per unit net sale value, total distributive expenses (Col.11) is to be deducted from gross sale value (Col.7) and then divided by quantity sold (Col.6). Per unit net sale value is to be calculated upto 2 place of decimal.

Ex-factory value (Rs.) (J_Itm13)

File: J-PRODUCTS AND BY-PRODUCTS

Overview

Ex-factory value (Rs.) (J_Itm13)

File: J-PRODUCTS AND BY-PRODUCTS

Type: Continuous
Format: numeric
Width: 12
Decimals: 0
Range: 0-653698614635

Valid cases: 108691
Invalid: 0
Minimum: 0
Maximum: 653698614635
Mean: 208019470.1
Standard deviation: 3307733492.6

Literal question

Ex-factory value of Output (Rs.) (Col 12 X col 5)
received (Rs.)

Interviewer instructions

Following procedure may be adopted for calculation of ex-factory value of output.

Per unit net sale value calculated under Col.12 upto 2 place of decimal is to be multiplied by quantity manufactured shown under col.5 in respect of first ten major items at Sl. .Nos. 1 to 10 and entry is to be recorded to the nearest whole rupee.

Ex-factory value for other products/by-products (Item 11) will be taken as entry in col.7 minus entry in col.11.

In case quantity manufactured (col.5) and quantity sold (col.6) are identical being no opening and closing stocks, the ex-factory value will be the entry under col.7 minus entry in col.11. Total items 1 to 11 is to be reported under col.13.
